Owing to crowded space this week, a number of estates notices have to be given to appear in the next issue.

The baseball game between the Coleman and Blairmore I.O.O.F. teams on Friday night resulted in a victory for the locals by 4 to 0.

## The Hillcrest Relief Fund

The Hillcrest Women's Relief Committee are very grateful to Mrs. Riou Green for collecting, and to all who contributed towards the Relief Fund for widows and orphans in the recent mining disaster. The names of the contributors and the amount collected are as follows:

J. Churchman	\$50.00
E. Flanagan	30.00
J. Gussone	2.00
A. Granger	2.00
C. E. Ritchie	2.00
W. Barnett	3.00
E. E. Cleeshak	2.00
J. Smith	2.00
L. P. Robert	5.00
J. Paul	2.00
B. Evans	.50
M. Fister	.50
S. King	2.00
K. Johnson	1.00
M. Pind	2.00
L. Gales	1.00
J. Burrows	5.00
O. Morgan	2.00
J. Beer	5.00
H. H. Tate	10.00
F. S. Katory	5.00
Blairmore Pharmacy	3.00
A. Friend	2.00
L. Dutil	5.00
R. Foulds	2.50
Murphy & Frayer Co.	10.00
Mr. Harrison	2.00
Mar-Poy	2.00
J. Flockley	1.00
Mrs. Raoul Green	10.00
Mrs. Passmore	2.00
Mrs. Rossbach	1.00
Mrs. Dr. Mackay	1.00
Total	\$172.70

## Novel Transportation Scheme.

Toronto, July 15.—The C. P. R. is now engaged in arranging for the adoption of a novel transportation scheme, whereby transportation by motor vehicles of the prairie provinces which will practically bring the railway to the barn door of every farmer in its territory.

Every freight station will be made a depot for a "fleet" of motor vehicles, of a type specially devised for this service, the number varying according to the size and importance of the district served. It is expected that transportation facilities will have from 25 to a score of these cars in service. The cars which, owing to the nature of the prairie territory will not have to negotiate any heavy grades are designed to carry about one-sixth of a railway carload of merchandise and are particularly adapted for the transport of grain.

The chief importance of this service will, of course, be in connection with the grain harvest in the autumn, but the belief of the railway authorities is that sufficient use can be made of the cars for delivering supplies to farmers and assisting in the establishing of homesteads on the land, to justify keeping them in service all the year round.

## Storstad to Blame

Quebec, July 11.—The findings of the commission appointed to enquire into the circumstances of the loss of the Empress of Ireland off Rimouski on May 29, was handed down today. Chief blame for the disaster is placed on the third officer of the collier Storstad, who changed the course of the ship without instructions from the first officer, who was in charge of the collier at the time. The Empress was sunk in the St. Lawrence river on May 29, with a loss of nearly 1,000 lives.

## APPLICATION FOR LEASE OF ROAD ALLOWANCE

NOTICE IS HEREBY GIVEN that James A. Callan, of Bellevue, has made application to the Minister of Public Works, Edmonton, for a lease of the following road allowance, namely: That portion of the Government road allowance between Sections 20 and 29, in Township 7, range 3, west of the 5th Meridian, beginning at the Northwest corner of the said Section 20, thence in a westerly direction along the said road allowance a distance of 77 feet. Any protest against the granting of the above mentioned lease must be forwarded to the Minister of Public Works, Edmonton, within thirty days from the date of this notice.

JAMES A. CALLAN, (Applicant).  
Dated at Bellevue, Alberta.  
14th July, 1914.

## C.P.R. Making Work For Pass Coal Mines

That the Canadian Pacific Railway is doing something that will be a great help to Lethbridge and the Crow's Nest Pass, was the information gathered from Superintendent Cameron of the C.P.R., who is in the city today.

"To help out the situation," said Mr. Cameron, "the company is using a much larger percentage of steam coal on its Manitoba and Saskatchewan line than heretofore. Usually, Pittsburg coal is used as far west as Moose Jaw, but to make work in the Pass, we are shipping to ourselves 1400 tons of steam coal daily from the Pass engines for use on Manitoba and Saskatchewan lines. This is the first time this has ever been done."

Superintendent Cameron stated also that the company looked for a heavy fall and winter in the coal business. The mine operators are of the same opinion, and all miners in the Pass, though they are ordering cars heavily. The mines should be running full blast before many more days, — Lethbridge Herald.

## Permanent Commission for Administration of Relief Fund

An Order-in-Council has been passed by the Provincial Government constituting a Permanent Commission to handle the Hillcrest Relief Fund. His Honor, Judge McNeill, of the District Court, is chairman. The other members of the Commission are: W. C. Bryan, Clerk of the District Court, who is Secretary, and Mr. Windsor, Manager of the Union Bank at Hillcrest.

"This commission will handle all funds contributed to the relief of the afflicted families who lost their means of livelihood in the terrible disaster which blasted out nearly two hundred lives."

## The Highwood Petroleum Company

The Highwood Petroleum Company was incorporated under the laws of the Province of Alberta on the 30th day of May, 1914, and controls valuable petroleum and natural gas leases in what is considered the most probable location in Southern Alberta. The total holdings of the Company comprise over 3,000 acres, carefully selected and widely distributed over the field now being developed in such a way that the discovery of oil by almost any of the companies now drilling would beneficially affect this Company's holdings. The Company is capitalized at \$1,000,000, divided into 4,000,000 shares of 25 cents each.

The directors are composed of prominent and influential business men of High River, Alberta, with Norman H. Young as Secretary-Treasurer of the Company. The High River Times says: "The Company was not formed for the mere purpose of selling stock. The men at the head of the company are all reputable citizens who have made a success of this life, and it is their intention to develop their leaseholdings to the fullest capacity."

One of the directors, Alfred Kelly, visited Blairmore on Monday, and while here made arrangements with Mr. Archie McLeod to act as local agent for his company. Mr. McLeod will be pleased to furnish all information desired.—adv.

## All-American Girls Coming

The All-American Girls baseball club is booked to play a game of baseball with the local boys at Blairmore on Tuesday, July 28th, at 6 p.m. This club is composed of all young girls from the various colleges of the States, and are making a tour through Canada to the coast, where they will play all winter in lower California and be one of the special features at the exposition in Frisco in 1915. The All-American Girls have been cleaning up everything along the line; but manager Albert Olsen, of the locals, says he is going to put a team on the field that will

## The Closing Down Of Hosmer Mines

Calgary, Alberta, July 1914 In order to get a better understanding of the closing down of the Hosmer mine by the Canadian Pacific Railway, concerning which some criticism has been made through the press recently, your correspondent obtained the following interview with Mr. Dennis, Assistant to the President, Canadian Pacific Railway.

"Since the company established the Hosmer mine six years ago," said Mr. Dennis, "considerable sums of money have been spent in developing it and endeavoring to make it a large and permanent colliery, but for the past two years it has been at a steady monthly loss. When we realized that there was no chance of developing this colliery on a reasonable financial basis, we reluctantly concluded, because the colliery was operated only for our own needs and to supply coal for the Trail Smelter, to close it down. It did not even supply sufficient coal for our own use, and was therefore never in the market for the sale of coal, and you can readily see that it was not a sound business proposition."

"We realized," continued Mr. Dennis, "that the closing down of this mine would be a disadvantage to the miners, and that we would be reducing employment in the Crow's Nest district, and I can say with regret that if we could have even operated the coal mine to meet expenses it would not now be closed."

"What about the townsite, and those who will have to be left with property practically on their hands?" "The C.P.R. had nothing whatever to do with establishment of a townsite at that point," replied Mr. Dennis. "The townsite is not situated on the C.P.R. property and was laid out and belongs to a local syndicate who bought out from the Crow's Nest Pass Coal Company; there is therefore no responsibility on the part of the C.P.R. in this connection, and I may add that the Company had provided homes for its workmen immediately adjacent to the mine. I do not think that there will be great hardship suffered by the miners through loss of employment in this mine, as we can employ some of them in our other collieries, and as there are many other collieries scattered through the Crow's Nest Pass where they can find work; there is no doubt some hardship for people who have bought land, (and are living in the townsite above referred to) owing to closing down, but I don't think that the C.P. can in any sense be held responsible for those who bought land in that townsite, as they bought property there, and took their chance in establishing themselves in a town of that kind with the full knowledge of what they were doing, and particularly in view of trouble that arises at all coal mining towns, resulting from closing down of the mines owing to shortage of orders, strikes, etc."

The Doubtful Compliment

She—Oh, there goes my husband.  
Isn't she lovely? I wish I were half  
as good looking!

He—Oh, you are—Exchange!

Stop the Cough—Coughing is  
caused by irritation in the respiratory  
passages and is the effort to dislodge  
obstructions that come from inflamma-  
tion of the mucous membrane.

Treatment with Dr. Thomas' Electric  
Oil will allay the inflammation and in  
consequence the cough will cease.

Try it and you will use no other  
preparation for a cold.

Doctor (to patient)—You'll have  
to rouse yourself up and take more  
interest in your business.

Patient—My dear sir, that is ab-  
solutely impossible.

Doctor—Why? What is your busi-  
ness?

Patient—I'm a moneylender.

Circumstantial Evidence

Gentleman (engaging butler)—Are  
you married?

Applicant—No, sir. I was thrown  
against a barbed wire fence and got  
my face scratched.

Just About Then

"When does the honeymoon end?"

"Well, frequently, if the wife's  
moon, it ends after the last quarter  
is reached."

Some cheerful givers, 'tis true,  
Give quickly and give twice;  
But there are cheerful givers who  
Give nothing but advice.

FEELS LIKE  
A NEW WOMAN

As Lydia E. Pinkham's Veget-  
able Compound Dispelled  
Backache, Headaches  
and Dizziness.

Piqua, Ohio.—"I would be very un-  
grateful if I failed to give Lydia E.  
Pinkham's Vegetable Compound the  
praise it deserves, for I have taken it  
at different times and it always re-  
lieved me when other medicines  
failed, and when I hear a woman com-  
plain I always recom-  
mend it. Last winter I was attacked  
with severe case of organic weakness.  
I had backache, pains in my hips and  
over my kidneys, headache, dizziness,  
headache, but no energy, limbs ached  
and I was always tired. I was hardly  
able to do my housework. I had taken  
Lydia E. Pinkham's Vegetable Com-  
pound on one other occasion, and it had  
helped me so I took it again and it has  
built me up until now I feel like a new  
woman. You have my hearty consent  
to use my name and testimonial in any  
way and I hope it will benefit suffering  
women."—Mrs. ORETTA TURNER, 431 S.  
Wayne St., Piqua, Ohio.

Women who are suffering from these  
distressing ills peculiar to their sex  
should not doubt the ability of Lydia E.  
Pinkham's Vegetable Compound to re-  
store their health.

If you want special advice  
write to Lydia E. Pinkham Medi-  
cine Co., (confidential) Lynn,  
Mass. Your letter will be answered  
read and answered by a woman  
and held in strict confidence.

**China's Fearless Iron Mine**  
China's famous iron mine, the  
Tayeh, in the far east, is  
especially notable for the ease with  
which it is worked. It stands peerless  
in the world in this respect, exca-  
vation requiring no machine power.  
The work is done by hand by the Chinese  
coolies. The mine is worked to an  
inexhaustible in ore. In the days  
of the "three kingdoms" the locality  
formed a theatre of bloody fighting  
and the vicinity abounds in relics of  
that memorable period in Chinese his-  
tory. It is about 3,500 Chinese miles  
from Peking overland and about 4,950  
Chinese miles by water. Tayehsien  
is traversed by the great railway  
and mountains, the valleys of which  
abound in innumerable lakes of all  
sizes, with water course facilities.  
Consequently the locality is rich in  
scenery of great beauty, and the  
Chinese poets of olden times have  
never tired of singing of the "eight  
views" of Tayeh. In the neigh-  
borhood of the Tayeh iron mine  
found the ruins of ancient iron found-  
ries, probably 1,000 years old. Mil-  
lions of tons of slag lie in heaps.

NEW STRENGTH  
IN THE SPRING

Nature Needs Aid in Making New Blood

Giving Blood

In the spring the system needs a  
tonic. To be healthy you must have  
new blood just as the trees must  
have new sap to renew their vitality.  
Nature demands it, and without  
this new blood you will feel weak  
and languid. You may have twinges  
of rheumatism or the sharp, stab-  
bing pains of neuritis. Often there  
are disgusting pimples or eruptions  
on the skin. In other cases there is  
merely a feeling of tiredness and a  
variable appetite. Any of these are  
signs that the blood is out of order—  
that the indoor life of winter has  
weakened your vitality. What  
remedy in spring is a tonic medicine to  
put you right, and in all the world  
of medicine there is no tonic cal-  
led Dr. Williams' Pink Pills. These  
Pills actually make new, rich, red  
blood—your greatest need in spring.  
This new blood drives out the seeds  
of disease and makes easily tired  
men, women and children bright, ac-  
tive and strong. Rakes Geo. Buras,  
Albany, N.Y., writes: "I was ter-  
ribly sick after the flu for a week that  
I could hardly drag myself around. I  
was so nervous that I was afraid to  
walk across the floor for fear I would  
fall. My family doctor treated me  
at without success and finally I be-  
gan taking Dr. Williams' Pink Pills.  
Gradually they brought me back to  
good health—now I am as well as  
ever—and have even been recom-  
mending these Pills to other sufferers."

These Pills are sold by all medi-  
cine dealers or can be had by mail  
at 50 cents a box or six boxes for  
\$2.50 from The Dr. Williams' Medi-  
cine Co., Brockville, Ont.

Consenting Silence

"Do you believe that silence gives  
consent, Dabbler?" asked Gossing.

"Why—yes," said Gossing.

"Why?" said Dabbler.

"Then you may congratulate me on  
my engagement to Miss Moneybags. I  
wrote to her asking her to marry me  
six months ago, and I haven't heard  
a word from her since."

**Shiloh**

The family remedy for Coughs and Colds

A Master of Good English

If Mr. Wilson never did anything  
else than see the standard for tele-  
graphical utterance on public affairs in  
the strongest of withering lan-  
guage, he would have deserved full  
of an American people.—Montreal  
Star.

The Easiest Way

Joe—"What is the easiest way to  
drive a nail without smashing my  
fingers?"

Josephine—Hold the hammer in  
both hands—Olio San Daily.

A corporal in an Irish regiment  
when on a march in Ireland was  
the quartermaster to borrow a can  
to carry a spare tent. The quar-  
termaster refused.

"I have only the cart, and this spare  
can I am keeping for a case of  
emergency."

"Well," said the corporal, "can't  
you put the case of emergency on  
the cart and let me have the can?"

"What is the evil of divorce and re-  
marriage?"

"The trouble of breaking in a new  
mother-in-law."

A bit of this and a taste of that, all day  
long, dials the appetite and weakens the  
digestion.

Restore your stomach to healthy vigor  
by taking a few doses of Dr. Cassell's  
after each meal—and out of the "flicking."

**Na-Pru-Co Dyspepsia Tablets**

are the best friends for sufferers from  
indigestion and dyspepsia. 50c a box  
at your Druggists. Made by the  
National Drug and Chemical Co. of  
Canada, Limited.

## Lore of the Sea

Some remarkable advice to sea-  
men is given in the Portuguese  
book, published for the guidance of  
mariners. Among other things it  
states that the rights of captain and  
crew are equal, and that the captain  
must not be a tyrant, and that the  
rights of the crew are to be legally  
protected.

The sailor is advised to bear calmly  
any verbal abuse that an irate skipper  
may hurl at him, but if words passed  
to blows he was to run away into the  
hulls and firmly take his stand be-  
hind the anchor chain.

Should an infuriated master, armed  
with a belaying pin or other legal  
weapon, chase him to his stronghold,  
the mariner was to slip around to the  
further side of the chain. Should he  
not be pursued, he was to call his  
necessaries to witness that the mas-  
ter had broken the rules by circum-  
venting the chain.

Then, at last, he was to defend  
himself—and let us hope he would do  
it well. Other rules of discipline  
are set out, and they show a sub-  
tle effort to make the punishment fit  
the crime.

The ship's clerk a privileged per-  
son who acted as bookkeeper, purser  
and cargo-master, was liable to be  
granted in the forenoon, to lose his  
right hand, and to forfeit all his prop-  
erty if he made a wrong entry in the  
ship's book, or conspired at such an  
entry.

A seaman who fell asleep on his  
watch was only put on a diet of bread  
and water, unless the offence was  
committed in hostile waters. In that  
case he must be stripped naked, flogged  
by his messmates and ducked thrice in the sea.

If he were an officer, however, he  
would only lose all food except his  
bread, and have a pail of water flung  
over him from the head of the anchor.

Efficiency was the topic that was  
discussed at a banquet in the  
Ashington club the other night  
when Conger Samuel John G. Rother-  
well, of Reading, was reminded of a  
declaration of an esteemed party  
named James.

The Rev. Dr. James attended a cir-  
cus some time since, where one of the  
big features of the show was a beau-  
tiful lion tamer. Entering the ring,  
followed by the lion, the fair charmer  
placed a lump of sugar between her  
finger and thumb, which the lion took  
from her with his teeth. Instantly  
James sat upright and L. San to take  
notice.

"Great stunt, all right," he loudly  
shouted to the performer, "but I can  
do it too!"

"Of course," scornfully replied the  
girl, who didn't appreciate having her  
act minimized, "but do you really  
think you can do it?"

"Most assuredly," was the prompt  
reply of James, "just as well as  
the lion."

Rather Naïve

"Today makes twenty-five years  
since you and I have worked togeth-  
er," said Old Nigard, the man  
facturer. "And I have done well—"

"Yes, boss," answered Tim, think-  
ing of his miserable thirty bob a  
week.

"Now, here is a little present that  
will please the wife and kiddies," said  
Old Nigard, presenting a large blue  
envelope on his old workman.

"I'm sure, boss, it's very good—"

## DEATH OF FAMOUS WESTINGHOUSE

GEORGE WESTINGHOUSE WAS ONE OF THE GREATEST INVENTORS OF MODERN TIMES.

Was the Man Who Revolutionized Modern Methods of Transportation—Also Designed the Air Brake, His Famous Invention Proving a Huge Success.

George Westinghouse, who died recently in New York, aged 85, was one of the greatest inventors of modern times, known all through the world as the inventor of the Westinghouse air brake and many other devices, and appliances which have completely revolutionized modern methods of transportation, was born in Central Bridge, Schenectady County, New York, on October 6, 1839, the son of George and Blaguna Veder Westinghouse. His father, a native of Germany and settled in Massachusetts and Vermont before the revolution, his mother's name was by the name of Dutch-Swedish stock.

The father of George Westinghouse was a mechanical engineer and an inventor of various kinds of appliances. In 1856 he removed to Schenectady, N.Y., where he established a machine shop. His first important work was the design of the Westinghouse air brake, which he patented in 1869. He also designed the Westinghouse electric motor, which he patented in 1887. He was a member of the American Institute of Mechanical Engineers, and the American Society of Mechanical Engineers. He was also a member of the National Academy of Sciences. He was a man of great energy and initiative, and he was a man of great success. He was a man of great success. He was a man of great success.

As a young man he became interested in military matters and he became a member of the New York National Guard. When the Civil War broke out he enlisted and served in the 69th New York Cavalry from June 1862 until November, 1864. After the close of the war he returned to Schenectady and entered Drexel College for a classical course.

Immediately after his return from the war young Westinghouse took up his mechanical work and studied under the name of Westinghouse. He was a man of great energy and initiative, and he was a man of great success. He was a man of great success. He was a man of great success.

In his first experiments, he attempted to use steam as a motive power, but this plan was not feasible. He was a man of great energy and initiative, and he was a man of great success. He was a man of great success. He was a man of great success.

Young Westinghouse did not lose his courage, however, and at last succeeded in obtaining the consent of the superintendent of the Pennsylvania Railroad to test the air brake on a train. The trial was made in the month of October, 1869, and proved a brilliant success. In fact, the air brake proved the most important invention of modern times. It was a man of great energy and initiative, and he was a man of great success. He was a man of great success. He was a man of great success.

Mr. Westinghouse continued to improve his brake, and also made other inventions in railway signals, steam and gas engines, electric trams, and electrical machinery. He was a man of great energy and initiative, and he was a man of great success. He was a man of great success. He was a man of great success.

Paris Police Begin System of Reform. The Paris police have begun the introduction of a system of moral reform in the public resorts of the city. The system, which is called the "Paris Police System," is a system of moral reform in the public resorts of the city.

## MAY REPAIR MARRIAGES

Warning issued to Christian Women Who Want Hindu and Mohammedan Marriages.

The state department has issued public notice through the Canada Gazette and through newspapers at the various provincial governments that marriages between women of British nationality, professing the Christian religion, and Mohammedan or Hindu or other persons, belonging to countries where polygamy or concubinage is legal, should not be allowed unless these women are first warned that such marriages may be repudiated by the husband if he returns to his country of birth. The influx of Hindus in British Columbia with the expectation of the womanizing, lends point to this warning.

The notice is given through the repudiation of a circular received from the colonial office. This circular states that while the registrar of marriages has no power, according to the provisions of the Marriage Act, to refuse to register marriages, care should be taken to make the position clear to every woman who is about to be married. It is pointed out that while the marriage would be valid as to the husband, it would not be valid as to the wife, and it is necessary to void it if he returned to India or to his own Mohammedan country. Under the "personal" law of the Hindu, a woman who is married under British law is not necessarily recognized by Mohammedan law as giving her the same rights and affording her the same protection in a country where Mohammedan law is observed. There is a marriage relationship, which is a marriage, which the Mohammedan law will recognize. The Mohammedan husband may divorce his wife at will without any legal formalities beyond that of repudiating her.

## OWNERSHIP OF SPITZERBERG

Scheme for International Control of Arctic Region.

Delegates from England, France, Holland, Germany, Denmark, Sweden, Russia and Norway will meet June 15, 1900, at Copenhagen to discuss the ownership of Spitzbergen, those Arctic islands famous for the point of departure for many Arctic expeditions.

The congress is due to an invitation of the Norwegian government made three years ago. The powers of the next June are those which in the first instance signified their willingness to accept the plan. The plan is to have an international participation in the ownership of the island. There are also four British claims in the area. The British claims are in the area of the island. The British claims are in the area of the island.

The problem of policing the island has long been a subject of controversy. This question has naturally formed the chief concern of the three nations. Russia, who by virtue of their interests have agreed to submit to the control of the island, have drafted a convention based upon a memorandum by the Norwegian government. It is confirmed at the present time by the original text. The convention is to be signed on June 4—September is to be the date of the convention. The convention is to be signed on June 4—September is to be the date of the convention.

## WHITE WOLF HAVAGES

Notorious Chinese Outrageous Brutality Murdering and Plaguing.

Outrages by brigands in Central China are again causing great alarm. Several bands of white wolves, as the noted white wolf, are ravaging the region. The white wolves are ravaging the region. The white wolves are ravaging the region.

The latest exploit of the bandits was the massacre of 300 townsfolk who were resisting their entrance into an important strategic town. The bandits are ravaging the region. The bandits are ravaging the region. The bandits are ravaging the region.

## HAS TALKED 1,000,000 YEARS

Man Had Power of Speech in Pliocene Times, Scientists Say.

The remarkable conclusion has been arrived at by putting two and two together in high expert pronouncements that man had the power of speech a million years ago. The conclusion is based on the discovery of the bones of a man who lived in the Pliocene period. The conclusion is based on the discovery of the bones of a man who lived in the Pliocene period.

## TO BETTER CONDITIONS

Let Jos. Fels' Fortune to be Devoted to Charitable and Sociological Activities.

Excepting \$50,000 devoted to a friend, Walter Coates of Middlebury, Yorkshire, England, who was his private secretary, the fortune of Joseph Fels, millionaire manufacturer and economist, becomes possessed by his husband's vast estate to be used for charitable and sociological activities of her husband.

The document appended Mrs. Fels' will, which is a list of her husband's movements, settlements and enterprises of his husband, which will be maintained and extended by her as his successor. Mrs. Fels, for many years was her husband's intimate companion and confidante in his varied activities.

Of these plans, Mr. Coates says: "The partnership between husband and wife has been dissolved by death, the business in which they were engaged, and the condition of humanity, will be foreseen in the mind of the surviving partner." The document is a list of the plans of the Fels family.

The document is a list of the plans of the Fels family. The document is a list of the plans of the Fels family. The document is a list of the plans of the Fels family.

## SHED LIGHT ON HISTORY

Sir John A. Macdonald's Papers and Letters Are Placed in Archives.

A remarkable collection of documents and letters bearing upon the political history of Canada and regarded as one of the most valuable ever handed over to the archives of the government, has just been placed at the disposal of the public by Sir Joseph Pope, the premier's life from boyhood to the death of his father, the late Sir John A. Macdonald. The papers number nearly 100,000.

On the death of Sir John A. Macdonald, the papers were placed in the hands of the government. The papers were placed in the hands of the government. The papers were placed in the hands of the government.

## A GERMAN WAR PROPHECY

Scheldermann Says No More Strife in Western Europe.

Philip Scheldermann, first vice-president of the German Reichstag, a distinguished leader of the Social Democratic party of Germany, visiting here in the course of his tour, has said that he believes that no more strife will be waged in Western Europe. The Socialists are organized, he said, in opposition to war, and are resolved not to fight with other than the command of their rulers.

This prophecy, if perhaps premature, is encouraging. The heaviest burden borne by the people of Europe is the cost of military armaments. The fear of war, therefore, ever increasing expenditures to prepare for it. The world's scope of free public education, a world of free public education, a world of free public education.

## A Country of Young People

Census Bulletin XVIII, Just Issued, Deals with the Ages of the People.

The census of 1891, which was the first census taken in Canada, showed that the population of Canada was 3,000,000. The census of 1901, which was the second census taken in Canada, showed that the population of Canada was 4,000,000. The census of 1911, which was the third census taken in Canada, showed that the population of Canada was 5,000,000. The census of 1921, which was the fourth census taken in Canada, showed that the population of Canada was 6,000,000. The census of 1931, which was the fifth census taken in Canada, showed that the population of Canada was 7,000,000. The census of 1941, which was the sixth census taken in Canada, showed that the population of Canada was 8,000,000. The census of 1951, which was the seventh census taken in Canada, showed that the population of Canada was 9,000,000. The census of 1961, which was the eighth census taken in Canada, showed that the population of Canada was 10,000,000. The census of 1971, which was the ninth census taken in Canada, showed that the population of Canada was 11,000,000. The census of 1981, which was the tenth census taken in Canada, showed that the population of Canada was 12,000,000. The census of 1991, which was the eleventh census taken in Canada, showed that the population of Canada was 13,000,000. The census of 2001, which was the twelfth census taken in Canada, showed that the population of Canada was 14,000,000. The census of 2011, which was the thirteenth census taken in Canada, showed that the population of Canada was 15,000,000. The census of 2021, which was the fourteenth census taken in Canada, showed that the population of Canada was 16,000,000. The census of 2031, which was the fifteenth census taken in Canada, showed that the population of Canada was 17,000,000. The census of 2041, which was the sixteenth census taken in Canada, showed that the population of Canada was 18,000,000. The census of 2051, which was the seventeenth census taken in Canada, showed that the population of Canada was 19,000,000. The census of 2061, which was the eighteenth census taken in Canada, showed that the population of Canada was 20,000,000. The census of 2071, which was the nineteenth census taken in Canada, showed that the population of Canada was 21,000,000. The census of 2081, which was the twentieth census taken in Canada, showed that the population of Canada was 22,000,000. The census of 2091, which was the twenty-first census taken in Canada, showed that the population of Canada was 23,000,000. The census of 2101, which was the twenty-second census taken in Canada, showed that the population of Canada was 24,000,000. The census of 2111, which was the twenty-third census taken in Canada, showed that the population of Canada was 25,000,000. The census of 2121, which was the twenty-fourth census taken in Canada, showed that the population of Canada was 26,000,000. The census of 2131, which was the twenty-fifth census taken in Canada, showed that the population of Canada was 27,000,000. The census of 2141, which was the twenty-sixth census taken in Canada, showed that the population of Canada was 28,000,000. The census of 2151, which was the twenty-seventh census taken in Canada, showed that the population of Canada was 29,000,000. The census of 2161, which was the twenty-eighth census taken in Canada, showed that the population of Canada was 30,000,000. The census of 2171, which was the twenty-ninth census taken in Canada, showed that the population of Canada was 31,000,000. The census of 2181, which was the thirtieth census taken in Canada, showed that the population of Canada was 32,000,000. The census of 2191, which was the thirty-first census taken in Canada, showed that the population of Canada was 33,000,000. The census of 2201, which was the thirty-second census taken in Canada, showed that the population of Canada was 34,000,000. The census of 2211, which was the thirty-third census taken in Canada, showed that the population of Canada was 35,000,000. The census of 2221, which was the thirty-fourth census taken in Canada, showed that the population of Canada was 36,000,000. The census of 2231, which was the thirty-fifth census taken in Canada, showed that the population of Canada was 37,000,000. The census of 2241, which was the thirty-sixth census taken in Canada, showed that the population of Canada was 38,000,000. The census of 2251, which was the thirty-seventh census taken in Canada, showed that the population of Canada was 39,000,000. The census of 2261, which was the thirty-eighth census taken in Canada, showed that the population of Canada was 40,000,000. The census of 2271, which was the thirty-ninth census taken in Canada, showed that the population of Canada was 41,000,000. The census of 2281, which was the fortieth census taken in Canada, showed that the population of Canada was 42,000,000. The census of 2291, which was the forty-first census taken in Canada, showed that the population of Canada was 43,000,000. The census of 2301, which was the forty-second census taken in Canada, showed that the population of Canada was 44,000,000. The census of 2311, which was the forty-third census taken in Canada, showed that the population of Canada was 45,000,000. The census of 2321, which was the forty-fourth census taken in Canada, showed that the population of Canada was 46,000,000. The census of 2331, which was the forty-fifth census taken in Canada, showed that the population of Canada was 47,000,000. The census of 2341, which was the forty-sixth census taken in Canada, showed that the population of Canada was 48,000,000. The census of 2351, which was the forty-seventh census taken in Canada, showed that the population of Canada was 49,000,000. The census of 2361, which was the forty-eighth census taken in Canada, showed that the population of Canada was 50,000,000. The census of 2371, which was the forty-ninth census taken in Canada, showed that the population of Canada was 51,000,000. The census of 2381, which was the fiftieth census taken in Canada, showed that the population of Canada was 52,000,000. The census of 2391, which was the fifty-first census taken in Canada, showed that the population of Canada was 53,000,000. The census of 2401, which was the fifty-second census taken in Canada, showed that the population of Canada was 54,000,000. The census of 2411, which was the fifty-third census taken in Canada, showed that the population of Canada was 55,000,000. The census of 2421, which was the fifty-fourth census taken in Canada, showed that the population of Canada was 56,000,000. The census of 2431, which was the fifty-fifth census taken in Canada, showed that the population of Canada was 57,000,000. The census of 2441, which was the fifty-sixth census taken in Canada, showed that the population of Canada was 58,000,000. The census of 2451, which was the fifty-seventh census taken in Canada, showed that the population of Canada was 59,000,000. The census of 2461, which was the fifty-eighth census taken in Canada, showed that the population of Canada was 60,000,000. The census of 2471, which was the fifty-ninth census taken in Canada, showed that the population of Canada was 61,000,000. The census of 2481, which was the sixtieth census taken in Canada, showed that the population of Canada was 62,000,000. The census of 2491, which was the sixty-first census taken in Canada, showed that the population of Canada was 63,000,000. The census of 2501, which was the sixty-second census taken in Canada, showed that the population of Canada was 64,000,000. The census of 2511, which was the sixty-third census taken in Canada, showed that the population of Canada was 65,000,000. The census of 2521, which was the sixty-fourth census taken in Canada, showed that the population of Canada was 66,000,000. The census of 2531, which was the sixty-fifth census taken in Canada, showed that the population of Canada was 67,000,000. The census of 2541, which was the sixty-sixth census taken in Canada, showed that the population of Canada was 68,000,000. The census of 2551, which was the sixty-seventh census taken in Canada, showed that the population of Canada was 69,000,000. The census of 2561, which was the sixty-eighth census taken in Canada, showed that the population of Canada was 70,000,000. The census of 2571, which was the sixty-ninth census taken in Canada, showed that the population of Canada was 71,000,000. The census of 2581, which was the seventieth census taken in Canada, showed that the population of Canada was 72,000,000. The census of 2591, which was the seventy-first census taken in Canada, showed that the population of Canada was 73,000,000. The census of 2601, which was the seventy-second census taken in Canada, showed that the population of Canada was 74,000,000. The census of 2611, which was the seventy-third census taken in Canada, showed that the population of Canada was 75,000,000. The census of 2621, which was the seventy-fourth census taken in Canada, showed that the population of Canada was 76,000,000. The census of 2631, which was the seventy-fifth census taken in Canada, showed that the population of Canada was 77,000,000. The census of 3041, which was the one hundred and sixteenth census taken in Canada, showed that the population of Canada was 118,000,000. The census of 3051, which was the one hundred and seventeenth census taken in Canada, showed that the population of Canada was 119,000,000. The census of 3061, which was the one hundred and eighteenth census taken in Canada, showed that the population of Canada was 120,000,000. The census of 3071, which was the one hundred and nineteenth census taken in Canada, showed that the population of Canada was 121,000,000. The census of 3081, which was the one hundred and twentieth census taken in Canada, showed that the population of Canada was 122,000,000. The census of 3091, which was the one hundred and twenty-first census taken in Canada, showed that the population of Canada was 123,000,000. The census of 3101, which was the one hundred and twenty-second census taken in Canada, showed that the population of Canada was 124,000,000. The census of 3111, which was the one hundred and twenty-third census taken in Canada, showed that the population of Canada was 125,000,000. The census of 3121, which was the one hundred and twenty-fourth census taken in Canada, showed that the population of Canada was 126,000,000. The census of 3131, which was the one hundred and twenty-fifth census taken in Canada, showed that the population of Canada was 127,000,000. The census of 3141, which was the one hundred and twenty-sixth census taken in Canada, showed that the population of Canada was 128,000,000. The census of 3151, which was the one hundred and twenty-seventh census taken in Canada, showed that the population of Canada was 129,000,000. The census of 3161, which was the one hundred and twenty-eighth census taken in Canada, showed that the population of Canada was 130,000,000. The census of 3171, which was the one hundred and twenty-ninth census taken in Canada, showed that the population of Canada was 131,000,000. The census of 3181, which was the one hundred and thirtieth census taken in Canada, showed that the population of Canada was 132,000,000. The census of 3191, which was the one hundred and thirty-first census taken in Canada, showed that the population of Canada was 133,000,000. The census of 3201, which was the one hundred and thirty-second census taken in Canada, showed that the population of Canada was 134,000,000. The census of 3211, which was the one hundred and thirty-third census taken in Canada, showed that the population of Canada was 135,000,000. The census of 3221, which was the one hundred and thirty-fourth census taken in Canada, showed that the population of Canada was 136,000,000. The census of 3231, which was the one hundred and thirty-fifth census taken in Canada, showed that the population of Canada was 137,000,000. The census of 3241, which was the one hundred and thirty-sixth census taken in Canada, showed that the population of Canada was 138,000,000. The census of 3251, which was the one hundred and thirty-seventh census taken in Canada, showed that the population of Canada was 139,000,000. The census of 3261, which was the one hundred and thirty-eighth census taken in Canada, showed that the population of Canada was 140,000,000. The census of 3271, which was the one hundred and thirty-ninth census taken in Canada, showed that the population of Canada was 141,000,000. The census of 3281, which was the one hundred and fortieth census taken in Canada, showed that the population of Canada was 142,000,000. The census of 3291, which was the one hundred and forty-first census taken in Canada, showed that the population of Canada was 143,000,000. The census of 3301, which was the one hundred and forty-second census taken in Canada, showed that the population of Canada was 144,000,000. The census of 3311, which was the one hundred and forty-third census taken in Canada, showed that the population of Canada was 145,000,000. The census of 3321, which was the one hundred and forty-fourth census taken in Canada, showed that the population of Canada was 146,000,000. The census of 3331, which was the one hundred and forty-fifth census taken in Canada, showed that the population of Canada was 147,000,000. The census of 3341, which was the one hundred and forty-sixth census taken in Canada, showed that the population of Canada was 148,000,000. The census of 3351, which was the one hundred and forty-seventh census taken in Canada, showed that the population of Canada was 149,000,000. The census of 3361, which was the one hundred and forty-eighth census taken in Canada, showed that the population of Canada was 150,000,000. The census of 3371, which was the one hundred and forty-ninth census taken in Canada, showed that the population of Canada was 151,000,000. The census of 3381, which was the one hundred and fiftieth census taken in Canada, showed that the population of Canada was 152,000,000. The census of 3391, which was the one hundred and fifty-first census taken in Canada, showed that the population of Canada was 153,000,000. The census of 3401, which was the one hundred and fifty-second census taken in Canada, showed that the population of Canada was 154,000,000. The census of 3411, which was the one hundred and fifty-third census taken in Canada, showed that the population of Canada was 155,000,000. The census of 3421, which was the one hundred and fifty-fourth census taken in Canada, showed that the population of Canada was 156,000,000. The census of 3431, which was the one hundred and fifty-fifth census taken in Canada, showed that the population of Canada was 157,000,000. The census of 3441, which was the one hundred and fifty-sixth census taken in Canada, showed that the population of Canada was 158,000,000. The census of 3451, which was the one hundred and fifty-seventh census taken in Canada, showed that the population of Canada was 159,000,000. The census of 3461, which was the one hundred and fifty-eighth census taken in Canada, showed that the population of Canada was 160,000,000. The census of 3471, which was the one hundred and fifty-ninth census taken in Canada, showed that the population of Canada was 161,000,000. The census of 3481, which was the one hundred and sixtieth census taken in Canada, showed that the population of Canada was 162,000,000. The census of 3491, which was the one hundred and sixty-first census taken in Canada, showed that the population of Canada was 163,000,000. The census of 3501, which was the one hundred and sixty-second census taken in Canada, showed that the population of Canada was 164,000,000. The census of 3511, which was the one hundred and sixty-third census taken in Canada, showed that the population of Canada was 165,000,000. The census of 3521, which was the one hundred and sixty-fourth census taken in Canada, showed that the population of Canada was 166,000,000. The census of 3531, which was the one hundred and sixty-fifth census taken in Canada, showed that the population of Canada was 167,000,000. The census of 3541, which was the one hundred and sixty-sixth census taken in Canada, showed that the population of Canada was 168,000,000. The census of 3551, which was the one hundred and sixty-seventh census taken in Canada, showed that the population of Canada was 169,000,000. The census of 3561, which was the one hundred and sixty-eighth census taken in Canada, showed that the population of Canada was 170,000,000. The census of 3571, which was the one hundred and sixty-ninth census taken in Canada, showed that the population of Canada was 171,000,000. The census of 3581, which was the one hundred and seventieth census taken in Canada, showed that the population of Canada was 172,000,000. The census of 3591, which was the one hundred and seventy-first census taken in Canada, showed that the population of Canada was 173,000,000. The census of 3601, which was the one hundred and seventy-second census taken in Canada, showed that the population of Canada was 174,000,000. The census of 3611, which was the one hundred and seventy-third census taken in Canada, showed that the population of Canada was 175,000,000. The census of 3621, which was the one hundred and seventy-fourth census taken in Canada, showed that the population of Canada was 176,000,000. The census of 3631, which was the one hundred and seventy-fifth census taken in Canada, showed that the population of Canada was 177,000,000. The census of 3641, which was the one hundred and seventy-sixth census taken in Canada, showed that the population of Canada was 178,000,000. The census of 3651, which was the one hundred and seventy-seventh census taken in Canada, showed that the population of Canada was 179,000,000. The census of 3661, which was the one hundred and seventy-eighth census taken in Canada, showed that the population of Canada was 180,000,000. The census of 3671, which was the one hundred and seventy-ninth census taken in Canada, showed that the population of Canada was 181,000,000. The census of 3681, which was the one hundred and eightieth census taken in Canada, showed that the population of Canada was 182,000,000. The census of 3691, which was the one hundred and eighty-first census taken in Canada, showed that the population of Canada was 183,000,000. The census of 3701, which was the one hundred and eighty-second census taken in Canada, showed that the population of Canada was 184,000,000. The census of 3711, which was the one hundred and eighty-third census taken in Canada, showed that the population of Canada was 185,000,000. The census of 3721, which was the one hundred and eighty-fourth census taken in Canada, showed that the population of Canada was 186,000,000. The census of 3731, which was the one hundred and eighty-fifth census taken in Canada, showed that the population of Canada was 187,000,000. The census of 3741, which was the one hundred and eighty-sixth census taken in Canada, showed that the population of Canada was 188,000,000. The census of 3751, which was the one hundred and eighty-seventh census taken in Canada, showed that the population of Canada was 189,000,000. The census of 3761, which was the one hundred and eighty-eighth census taken in Canada, showed that the population of Canada was 190,000,000. The census of 3771, which was the one hundred and eighty-ninth census taken in Canada, showed that the population of Canada was 191,000,000. The census of 3781, which was the one hundred and ninetieth census taken in Canada, showed that the population of Canada was 192,000,000. The census of 3791, which was the one hundred and ninety-first census taken in Canada, showed that the population of Canada was 193,000,000. The census of 3801, which was the one hundred and ninety-second census taken in Canada, showed that the population of Canada was 194,000,000. The census of 3811, which was the one hundred and ninety-third census taken in Canada, showed that the population of Canada was 195,000,000. The census of 3821, which was the one hundred and ninety-fourth census taken in Canada, showed that the population of Canada was 196,000,000. The census of 3831, which was the one hundred and ninety-fifth census taken in Canada, showed that the population of Canada was 197,000,000. The census of 3841, which was the one hundred and ninety-sixth census taken in Canada, showed that the population of Canada was 198,000,000. The census of 3851, which was the one hundred and ninety-seventh census taken in Canada, showed that the population of Canada was 199,000,000. The census of 3861, which was the one hundred and ninety-eighth census taken in Canada, showed that the population of Canada was 200,000,000. The census of 3871, which was the one hundred and ninety-ninth census taken in Canada, showed that the population of Canada was 201,000,000. The census of 3881, which was the two hundredth census taken in Canada, showed that the population of Canada was 202,000,000. The census of 3891, which was the two hundred and first census taken in Canada, showed that the population of Canada was 203,000,000. The census of 3901, which was the two hundred and second census taken in Canada, showed that the population of Canada was 204,000,000. The census of 3911, which was the two hundred and third census taken in Canada, showed that the population of Canada was 205,000,000. The census of 3921, which was the two hundred and fourth census taken in Canada, showed that the population of Canada was 206,000,000. The census of 3931, which was the two hundred and fifth census taken in Canada, showed that the population of Canada was 207,000,000. The census of 3941, which was the two hundred and sixth census taken in Canada, showed that the population of Canada was 208,000,000. The census of 3951, which was the two hundred and seventh census taken in Canada, showed that the population of Canada was 209,000,000. The census of 3961, which was the two hundred and eighth census taken in Canada, showed that the population of Canada was 210,000,000. The census of 3971, which was the two hundred and ninth census taken in Canada, showed that the population of Canada was 211,000,000. The census of 3981, which was the two hundred and tenth census taken in Canada, showed that the population of Canada was 212,000,000. The census of 3991, which was the

### The Booze Habit.

To the married man who cannot get along without his drink, an exchange suggests the following solution to bondage of the habit:

Start a saloon in your own home. Be the only customer.

You will have no license to pay. Go to your wife and give her \$2 to buy a gallon of whiskey and remember there are sixty drinks in one gallon.

Pay your drinks from no one but your wife and by the time the first gallon is gone, she will have \$4.00 to put in the tank and \$2 to start business again.

Should you live ten years and continue to buy booze from her and then die with makes in your boots, she will have enough money to bury you decently, to educate your children, buy a house and land, marry a decent man and quit thinking about you.

Some years ago a man in Kansas copied some passages from the Holy Bible, and sent them through the mails. He was arrested, convicted, and fined for sending obscene literature through the mails. Since that time the Bible in the United States has been declared obscene, and any editor who prints it as a continued story is liable to a fine of \$50, or imprisonment.

Many so-called Christians are constantly shipping tons of this filthy book to distant nations. Why do so, when ignorant and unenlightened people are liable to be corrupted through reading this vicious word of God. The Bible is the well of English literature, but it should be purged of all errors, obscene passages and needless literary devices. The book was written by 333 men and God had nothing to do with it, any more than any other book. These writers were human and good, mixture of evil and pearls. For ages, unthinking people, with parrot minds, most of whom have never read it through, have looked upon the Bible as a fetish, much the same as an Indian regards a magic pipe. We need the philosophy and wisdom of the great living that are set down in this great literary patchwork, but nothing more. When this is the medium will be closed to this sin-cursed, and just, and unwise, and over-burdened, and out of the rough stuff, and give the angels a chance to play their invisible wings, and the ozone of this mundane sphere.

—E. T. Lowry.

### Will Oil Replace Coal As Fuel?

The world's production of crude petroleum in 1912 amounted to about 32,921,750 tons; the sources, respective quantities and percentages were as follows:

COUNTRY	TONS (2,200 lbs.)	PERCENTAGE OF PRODUCTION
United States	22,667,000	69.16
Russia	10,715,000	32.53
Mexico	2,000,000	6.07
Romania	1,800,000	5.46
Dutch East Indies	1,675,000	5.08
Galicia	1,200,000	3.64
India	1,000,000	3.03
Canada	800,000	2.42
Other countries	812,500	2.48

If the whole of this crude petroleum were employed as fuel in steamships, it would not replace, allowing for its higher thermal efficiency, much more than five and one-half per cent of the world's output of coal, whilst if used in internal combustion engines it would be equivalent, as a source of power, to about 10 per cent of the coal. Only a small proportion, however, of the crude petroleum can be regarded as available for use as a source of power, for by far the larger part is in demand as an illuminating agent and as a lubricant for machinery.

As the United States produces over 62 per cent of the world's production of petroleum, it is interesting to note that Dr. Day, of the United States Geological Survey, considers that, at the present rate of increase of the output of petroleum, the known oil fields of the United States will, on the basis of the minimum quantity of oil obtainable, be exhausted by the year 1925, while, even if only the present output were maintained, the supply would, on the same basis, not last more than 10 years.

In many countries there are, no doubt, vast tracts of undeveloped petroleiferous territory, but only drilling can determine this. Even if the available deposits were far larger than there is reason to believe them to be, the cost of doubling the present output would be great. In view of these circumstances, it is not probable that there can be any general substitution of petroleum for coal as a source of power, although there is undoubtedly an opportunity for making provision for a larger use of liquid fuel for certain purposes in which its advantages are conspicuous.

### Duke of Connaught Sees Fishing Industry

The Duke of Connaught had an interesting experience in Newfoundland recently, seeing a first real insight into the cod fishing industry as practiced by the Newfoundlanders. At Blaine Station he saw a cod trapper's large enclosure of netting, used very extensively for fishing mackerel, now-a-days, hauled in by the fishermen and its catch removed, the fish being removed, brought to the curing house, cleaned, salted, dried and packed for market. He realized the hardships the Newfoundland fishermen endure in earning their bread by constant battle against fog, ice and storm. At St. Anthony one morning he saw another aspect of the life of the fisher people, the assistance provided for them in the way of medical, surgical and educational relief through the efforts of Dr. Grenfell, assisted by the generosity of his subjects in Britain, Canada and the United States. He greatly enjoyed the tour through the hospital, the orphanage, the technical school and the guest house. He was equally interested in the place, 1,300 reindeer maintained at the place. They are to be distributed in a year or two along the Labrador coast; their advent to be marked by a wholesale slaughter of the dogs now used, reindeer being substituted for the dogs.

According to one of the newspapers that has sprung up as a result of the oil boom in Calgary, there are over 250 companies organized in that district for the purpose of drilling for oil. The public is thus assured of a sufficiency of stock certificates even if the anti-advertiser would do not and as extensively as their promoters desire. —Montreal Gazette.

Since our last issue a very pleasant change has come over the country. Everywhere conditions are much brighter, larger orders are coming in, factories are increasing their output, and all through the country there is a much more pronounced feeling of optimism than has prevailed for the last several months. The change, but shows that whenever quiet periods come along, they are but of a temporary character, and that the future is bright for Canada by virtue of her great natural resources. —Truro News.

If the members of the Orange Order are open for suggestions, how would it be if those who carry swords would practice their parts for a few days before the parade. One man in Saturday's parade carried his sword as if it was a pitchfork, and the man ahead of him, whose car was in danger of being tickled at intervals by the steel, was heard to say in a slightly sarcastic tone that he had no objection to being tickled, but he did not want to be continually in a pin position. —News-Telegram.

### Certificates are Raised by Clever Crooks

Investigations which have been made recently by various oil companies bring to light the fact that forgeries and frauds in regard to oil certificates have been committed in the most barefaced manner by persons unknown.

Certificates for 10 shares have been raised to 1,000 and the transfer portions of many of the documents have been easily altered and mutilated. Some of the work has been crude, but much of it has evidently been done so cleverly as to lead many of the oil men to believe that smooth "sea" men have been taking full advantage of the opportunity afforded by the frenzy of speculation, to provide the unsuspecting public.

The question now at issue as to who will have to make good for the frauds which have been perpetrated. Many claim that the companies can be held responsible. They hold that the different companies offering stock to the public have not taken even ordinary precautions to protect themselves against unscrupulous persons.

In their hurry to sell stock to the public, they have issued certificates which are not perforated and which expert crooks can easily raise to any amount. This has evidently been done in many cases and worked successfully for certificates issued on various companies' books for a few shares have come back to the head offices mislaid and altered. The persons who bring them back invariably have bought them from unknown persons on the street. The companies so far have refused to honor raised certificates and it is very probable that several cases will be brought to the courts within the near future.

The trust companies realize that many of the companies have not been any too careful in the issuing of certificates and in order to free themselves from all responsibility in regard to the shares which they handle they are now perforating all new certificates.

### SYNOPSIS OF CANADIAN MINING AND OIL DEVELOPMENTS

**COAL MINING** in the Dominion, in 1913, amounted to 1,000,000 tons, and was a record for the Dominion. The coal industry is the backbone of the Dominion, and its development is of the greatest importance. The coal fields of the Dominion are extensive, and the output is increasing rapidly. ### Local and General

The Home Life Club will hold a social dance in the opera house tonight.

W. C. Robinson, of Cowley, paid a business visit to Blairmore on Wednesday.

The coroner's inquest into the Hillcrest disaster will be resumed on Tuesday next.

The provincial department of public works constructed 340 bridges in the province in 1913.

The first fourteen miles of grading for the famous Great Waterways Railway has been completed.

Mrs. M. D. Stitt, of Coleman, is visiting her parents, Mr. and Mrs. J. Monkman, at High River, for a few weeks.

His Honor Judge Carpenter, who presided over the enquiry commission at Hillcrest, returned to Calgary on Saturday.

R. M. and Mrs. Brisco, and J. R. and Mrs. Smith, spent a day fishing at Tod Creek during the week, and brought home full baskets.

The commission of enquiry into the Empress of Ireland disaster finds the collier Stordstad at fault and exonerates Captain Kendall.

So slack is the season along the waterfront of Montreal that some of the biggest liners of the Atlantic fleet will abandon the port for the rest of the season.

Owners of cows should at least endeavor to keep them off the main street of the town, and the railway, or else the pound by law will have to be strictly enforced.

Joe Bayly and Johnny O'Leary fought fifteen rounds to a draw at Vancouver on July 11th. The bout was to decide the Canadian lightweight championship.

Rumor has it that R. M. Brisco's business here is shortly to be taken over by J. S. McEachern. The transfer will likely take place within the next two weeks.

The official returns of the vote for president of District 18, U.M.W. of A. last week were as follows: W. L. Phillips 1322, D. H. Hyslop 1064. No voting was done at either Blairmore or Burnis.

Arthur Ellis, who officiated at the hanging of Kratchenko in Winnipeg, will be the executioner at Macleod, when Smith, Sokoloff and Manelik, who murdered the paymaster at Exshaw, pay the death penalty.

A man named Mike Rossi was arrested at Edmonton last week on the charge of vagrancy, and sentenced to thirty days in the Fort Saskatchewan jail. In his plea he did not state that he belonged to the Crows' Nest Pass.

On Wednesday afternoon of this week the cornerstone of the new Reid Sanatorium for consumptives at St. John's, Newfoundland, was laid by the Duke of Connaught, governor-general of Canada. The building is to be the finest of its kind in the new world.

William Roberts, for some time assistant to the sub-collector at Blairmore, is about to be transferred to the international boundary south of Corbin, B.C., and leaves for there this week. To reach his destination it is necessary to travel about thirty miles by pack horse. Before leaving for his new field a farewell banquet was tendered him by the members of L.O.O.F.

The annual picnic and excursion in connection with the Sunday school of Wesley church, Lethbridge, takes place on Wednesday next at Coleman. Arrangements have been made whereby those who desire to spend the day at Crows' Nest may do so, but the main programme will be carried out at Coleman. Those who have had the pleasure of attending these excursions in the past will not fail to take it in on this occasion and look forward to a good time. The train will leave Lethbridge at 7.20 a.m., and arrive at Coleman at 11. Returning train will leave Coleman at 3.25 p.m.

### Local and General

D. N. Drain arrived from San Antonio, California, on Sunday last.

Owing to lack of a quorum, there was no council meeting on Monday night.

Mrs. Kidd's maternity home, Box 95, Phone 151. Wedding cakes decorated.

H. E. Lyon returned last week end from a visit to Calgary and Edmonton.

Some excellent fish were brought in from the South and North Fork rivers on Monday.

R. J. Ritchie Patterson, of the W. A. Henderson Co., came to town from Lethbridge on Monday.

Mrs. E. C. Keith, Teacher of Music and Elocution. 75c. per hour each. Eighth Ave. North.

J. R. Palmer, who represented the Miners' Union at the Hillcrest inquiry, returned home to Lethbridge on Saturday.

Mr. Alled Kelly, of High River, was in town on Monday, on business in connection with the Highwood Petroleum Co.

Mr. Earl Ross, of Calgary, came to town on Monday to look after the body of his deceased brother, Sydney. He returned to Calgary on Thursday.

The commission of enquiry into the Hillcrest disaster completed their work on Saturday and the evidence is now being summed up by Judge Carpenter.

Maitland S. McCarthy, of Calgary; J. D. Hyndman, of Edmonton, and W. C. Ives, of Lethbridge, have been appointed to the Supreme Court bench of Alberta.

The fire brigade came out for practice on Tuesday evening, and accomplished one great feat by knocking fire out of one of dare-devil's bare head. Better keep on that sou'-wester!

The Rocky Mountain Courier announces that Dr. R. G. Brett, of Banff, will be the next lieutenant-governor of Alberta. He will succeed Hon. G. H. V. Bulya when the latter's time expires next year.

The police have been informed of the prevalence of sawdust in the waters of Lyon Creek. Such fact is to be regretted, as sawdust creates a barrier for the fish which would otherwise frequent this stream.

Sydney Ross, at one time a resident of Blairmore, but of late residing at Sentinel and Coleman, was found dead near Sentinel on Sunday. An inquest was held on Monday, and the remains were interred at the Coleman cemetery.

Corporal Searle, of the R.N.W.M.P., formerly of Blairmore, but until recently of Pincher Creek, has been transferred to Carmangay. He is being replaced at the Creek by Sergeant Cooper, of Carmangay, known as "the white man in the red coat."

An individual, who some months ago was sent down for free board and lodgings for having attempted to unmask an Italian with an H. Boker razor, made his appearance in Blairmore again on Tuesday night. After going through a silly performance and incidentally giving an exhibition of the new hesitation waltz, he was taken into custody by Constable Hancock, of the R.N.W.M.P. On being searched, his favorite weapon was found in his pocket.

Drilling operations commenced at Lundbreck on Monday afternoon. It is expected that by the end of the present month no less than five derrick will be working. As a result of the drilling operations, coupled with the preliminary developments in connection with the Dominion Western railway, Lundbreck has taken on new life and one of the old-timers who has watched the rising and falling of the town for years was on Sunday heard to remark that "Lundbreck is destined to be THE CITY of the foothills."

### Archbishop Scores Low-Necked Dresses

Kington, Ont., July 4.—Archbishop Spratt told the women in St. Mary's Cathedral at this morning's mass that he would prefer that all those who wore low-necked dresses should not present themselves for communion, as he considered it most disrespectful for them to approach the altar in garments that exposed them beyond the limit of decency. His grace has, on various occasions, expressed himself against low-necked dresses and his attitude toward women who had intended taking communion did not do so as a result of the archbishop's admonition.

### A Cold Blooded Yoke.

A grocer in a small town in North Dakota sent his Swedish clerk out to do some collecting. When the clerk returned from his futile trip he retorted:  
"You Yonson say he pay when he sell him hogs. Yim Olson say he pay when he sell him wheat, and Pete Yonson he say he pay in February."  
"Well," said the boss, "that's the first time Pete ever set a date to pay. Did he say he would pay in February?"  
"Well, aye tank so," said the clerk, "he say it ban a dam cold-day ven you get dat money. Aye tank dat ban February."

## Bellevue Happenings

James Taylor is on a business visit to Calgary.

E. W. Christie was visiting in Calgary this week.

Mrs. G. W. Goodwin was visiting in camp this week.

Arthur Wyatt was in Calgary this week on business.

Dr. Mackenzie's new car has arrived, and is a hummer.

Bobbie Powers was in from South Fork this week for supplies.

"Paddy" Ryan has disposed of his auto to a Blairmore firm.

Frank Bosley and party went to North Fork fishing this week.

Mr. Burey and Miss Mary Bosley were visiting in Coleman this week.

Dick Eccleston has moved into the house lately vacated by George Bateman.

Mr. Large, master mechanic, is occupying the house vacated by Mr. Nevins.

W. L. Phillips, the newly elected district president, was in camp this week on business.

D. Hyslop, of Coleman, occupied the pulpit at the Methodist church on Sunday evening.

Mrs. T. Bardsley, of Hillcrest, was in camp this week, the guest of Mrs. E. W. Christie.

Steve Humble and Joe Robertson were away fishing for a few days and report fish scarce.

All Tristram and Arthur Downes are trying the bathing business. All they need is a few lessons.

Mrs. S. Humble and Mrs. George Wallace were visiting in Calgary last week, returning on Sunday.

Mrs. Thos. Longworth, of Frank, was a visitor in camp this week, the guest of Mrs. George Jordan.

Quite a number of Orangemen left for Calgary on Friday, to take in the Glorious Twelfth celebration.

The new uniforms for the members of the Bellevue band have arrived and will be distributed this week.

George Grundy, who has been in camp for some time, pulled up stakes and left for Fernie this week.

Noble McDonald, the driver boss at No. 1 mine, met with a slight accident this week. He is doing nicely at home.

The stock visited the camp again this week, this time leaving a few son to Mr. and Mrs. James. Mother and child are doing well.

Our population is increasing fast. On Wednesday a fine daughter was born to Mr. and Mrs. J. M. Windsor, of the Union bank.

A large herd of sheep, of about 2000, belonging to J. T. Heninger, passed through here on Tuesday on their way to Grassy Mountain.

Joe McLean, who has been at Homer for some months past, returned to camp this week and is staying with his mother-in-law, Mrs. Jordan.

The football match between Frank and Bellevue on Saturday evening drew a good crowd. The game resulted in victory for Bellevue by a score of 2 to 1. The game was fast from start to finish.

The people of Bellevue are reminded that there will be a public meeting of citizens on Wednesday next, July 22nd, for the purpose of discussing the position of the school. The new school ordinance has made it impossible for the trustees to think of opening the school, unless there is some other arrangement, so those interested in the education of the children should make it their business to be present at the Lyric Theatre on Wednesday July 22nd.

THE BEST MEDICINE IN THE WORLD

"My little girl has dysentery very bad. I thought she would die. Chamberlain's Colic, Cholera and Diarrhoea Remedy cured her, and can truthfully say that I think it the best medicine in the world!" writes Mrs. William O'Neil, Clatsop, Mich. For sale by all dealers.

## Local and General

H. J. Porzi, contractor, has invested in a car.

W. T. Eddy, of Lundbreck, was in town on Wednesday.

Constable Painter escorted a prisoner to Macleod on Wednesday.

Messrs. Tate and Granger returned from a fishing trip to South Fork on Wednesday.

Large tract of good valley farming land just thrown open for free settlement in Oregon. Over 2000 acres in all. Good climate, rich soil and does not require irrigation to raise best crops of wheat, fruit and garden truck. For large map, full instructions and information, send a stamp of several sections of especially good claims, and \$2.00 to John Keefe, Oregon Land Grant, Three Star, U.S. Survey and Timberland. An opportunity to acquire fertile free homestead land for a small price.

I have for sale five head of Good Misch cows, freshly calved. These cows can be seen at my ranch, 300 yards from Cowley station. Price from \$80 to \$100 to b. Blairmore—C. H. Powell, Cowley.

The remains of Angus H. McKay and Alex. McQuarrie, victims of the Hillcrest disaster, arrived in Inverness on Monday and interment took place on Tuesday in Strathmore cemetery. The funerals were conducted under the auspices of Damon Lodge I.O.O.F. and Daniel L.O.L. The cortege was over a mile in length. The Cadets and Imperial band also marched, and the remains of A. H. McKay were buried with military honors. The case of the latter is particularly sad, the father having been removed by sudden death some two months ago. The sympathy of the townfolk goes out to the sorrowing families.—Westville Free Lance, July 9th.

John D. Figg, advance agent for the All-American Girls' baseball team, was in Blairmore on Saturday to arrange a date for the appearance of his bevy of beauties here. Tuesday, the 28th inst., is the date arranged, and the game will take place in the evening.

The team is playing in all the cities and towns of Western Canada and is having great success. At Winnipeg a mammoth crowd turned out to see the girls take a fall out of the best of the Winnipeg amateur teams and recently they invaded Medicine Hat and gave a good account of themselves, a bigger crowd turning out to the game than has yet been seen at any Western Canada league fixture at that place. Albert Olsen is now busy patching up his old reliables for the encounter on the 28th, and should the weather be favorable, this novel treat will be witnessed by hundreds of ball enthusiasts.

A GOOD INVESTMENT

W. B. Magli, a well known merchant of Whitewater, Wis., bought a stock of Chamberlain's medicine so as to be able to supply them to his customers. After receiving them he was small taken sick and saw that one small bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy was worth more to him than the cost of his entire stock of these medicines. For sale by all dealers.

Rev. S. H. Dyde, principal of Robertson college, Edmonton, expressed a belief, Sunday night, that the British empire would develop into a series of separate nations, bound together by laws of sympathy, and that Canada would play a large part in the affairs of the world as a result of this division. Dr. Dyde was speaking on the theme of national greatness, at the opening services of the North Hill Presbyterian church, Sunday night. This statement was followed up by an urgent appeal that all Canadians should take heed that the mistakes of former great nations should not be perpetuated in the history of Canada. That Canada would attain to full nationhood with an imperial alliance, the speaker not only believed to be possible, but held the opinion that it was certain to occur, owing to the geographical greatness of the Dominion.

CAUSES OF STOMACH TROUBLE

Sedentary habits, lack of outdoor exercise, insufficient mastication of food, constipation, a torpid liver, worry and anxiety, overeating, poor selection of food and drink not suited to your age and occupation. Correct your habits and take Chamberlain's Tablets and you will soon be well again. For sale by all dealers.

## Frank Happenings

A. E. Squadlock Farmer is visiting at South Fork.

Miss Flossie Ryan, of Hillcrest, visited Frank on Thursday.

The Union hotel will be ready for opening some time next week.

"Tim" Murphy is nursing a new pet named Rheumatism.

T. Jackson, of Coleman, played centre half for Frank against Bellevue.

Mrs. Taylor and Mrs. Beaver, of Hillcrest, were visiting in Frank on Saturday last.

The stag dance held on Saturday evening was a big success. The boys are asking for more.

The Association of Stationary Engineers held their regular meeting at the Frank hotel on Thursday night.

Coleman's baseball team (run down the early part of the week) and trimmed the local artists by the wide margin of 22-7.

A large number of local members of the I.O.O.F. attended the big celebration at Calgary and report having had a good time.

Frank's football team journeyed to Bellevue on Saturday last to play the stars of that town. A real good game was witnessed. Frank scored in the first fifteen minutes, Bellevue equalized a few minutes before half-time. The second half was fairly even, Bellevue scoring the winning point just a minute before the call of time. Fifty dollars was raised at the gate, which will be handed over to the Hillcrest relief fund.

Frank's footballers will visit Corbin on Saturday, July 18th, to play their league schedule. They have a hard nut to crack, but fully expect to bring back the laurels Frank will be represented as follows: "Pat" goal; Marple, right back; Watson, left back; Harry Jepson, left half; Alf Tristram, centre half; W. Miller, right half; T. Marsh, outside left; T. Jordan, inside left; T. Sloan, centre; E. Barker, inside right; I. Hutton, outside right.

## A Musing

On Ottawa my thoughts I fix and muse upon our politics; and on the men who make our laws, those martyrs to their country's cause, who take a fortnight's time to reach the final vote upon the "Speech"; who jaw and scold and criticize from morning prayer until they reach like in print to see their name and make of politics a game; who rather for would scrap and fight and hold late sittings every night, than get to work and hurry through the business they are supposed to do. They'd rather rise a party, clear by words and speeches in debate, than use their own God-given sense and clamor through the party fence. Let us have men who will espouse their country's, not their party's cause; and let them limit their debate, and not take weeks the voters to state on question that could soon be solved were party prestige not involved. A straight division gives my goat; I'd rather see a member vote according to his own belief, and not the dictates of his chief.—Ex.

The F. M. Thompson Co. are circulating a bunch of bills imported from Fernie.

The big fight between Carpenter and "Gunboat" Smith yesterday resulted in a draw.

A special meeting of the Blairmore Order of Owls will be held on Thursday night next, when the election of officers for the year will take place. A full attendance is requested.

Those interested in the formation of a branch of the Sons of England Society are requested to meet at The Enterprise office on Wednesday next at 9 a. m. The provincial grand president and other officials will be present.

The members of the Southern Alberta Printers Board of Trade will hold their monthly meeting in Blairmore on Wednesday next, July 22nd. Atmospheric conditions favoring the Lethbridge and Macleod members will soar from their local turmoil at 7 a. m. and might or tumble off in Blairmore early in the forenoon.

Blairmore Lodge, No. 89, meets in their Hall 880 Victoria St., every Tuesday at 8 o'clock. Visiting brethren welcome. L. C. GILES, N.G. W. ROBERTSON, R.S.

CROWS' NEST EXCAVATION NO. 8 Meets in the hall of the Enterprise every second and fourth Wednesday. H. C. GREEN, C.P. A. MORENCY, R.S.

## SURPRISING CURE OF STOMACH TROUBLE

When you have trouble with your stomach or chronic constipation, don't imagine that your case is beyond help just because your doctor fails to give you relief. Mrs. G. Seungie, Plainfield, N. J., writes: "For over a month I have been troubled with my stomach. Everything I ate upset it. Finally, one of Chamberlain's advertising booklets came to me. After reading a few of the letters from people who had been cured by Chamberlain's Tablets, I decided to try them. I have taken nearly three packages of the medicine, and can now eat almost everything that I want." For sale by all dealers.

THE ALBERTA COAL & COKE COMPANY, LIMITED

(Non-Personal Liability.)

NOTICE IS HEREBY GIVEN that the ordinary general meeting of the Alberta Coal & Coke Company, Limited, Non-Personal Liability, will be held at Lethbridge, Alberta, on Tuesday, the 26th day of July, 1914, at 2 o'clock in the afternoon, for the purpose of electing directors.

To receive and consider the annual statement of accounts, balance sheet and the report of the Directors, and to authorize or to elect directors and other officers in the place of those retiring by rotation and to transact any business of the Company.

After the transaction of the said business of the Company, the aforesaid resolution will be proposed, as an extraordinary resolution, to change the name of the Company to "The Alberta Coal & Coke Company, Limited, Non-Personal Liability."

And notice is hereby given that an extraordinary general meeting of the Company will be held at the same place and hour as the first meeting, on Tuesday, the 11th day of August, 1914, for the purpose of confirming the said extraordinary resolution, as a special resolution.

It is resolved that the requisite majority at the first of the above meetings, H. C. GEMERLING, Secretary.

## NOTICE

NOTICE IS HEREBY GIVEN that the Alberta Coal & Coke Company, Limited, intends to apply to the Registrar of Companies, at Lethbridge, Alberta, for permission to change the name of the company to "The Alberta Coal & Coke Company, Limited."

DATED at Spokane the 11th day of July, 1914.

H. C. GEMERLING, Secretary.
